WHY MALDIVES IS AN IDEAL LOCATION

● CASTAWAY BEACHES

With excellent palm-fringed locations, pristine white beaches, clear waters, year-round weather and natural beauty, Maldives offers the best a movie set can want, with little effort for set design and film shooting.

● WILD AND UNTAMED

The tropical landscape affords the best and most interesting locations.

● RESORTS, MODERN LUXURY AND NATURAL PARADISE

For the best blend of modern luxury and nature, our resorts are the top choice: beautiful architecture combined with a breath-taking slice of paradise.

● UNDERWATER BEAUTY

Our tropical fish, brilliant colours and beautiful oceans are simply unmatched.

● CULTURE, HISTORY, LIFE, UNUSUAL AND UNIQUE SETTINGS

The Maldives has an abundance of unusual backdrops and over 1,000 settings for you to choose from.

● CLIMATE

Although temperatures fluctuate between a minimum 26C and a maximum of 33C, the thermometer hovers around an average 30C. The cool breeze from the Indian Ocean makes the hottest days pleasant.

● PRIVACY

Maldives, tucked away quietly in the Indian Ocean, offers serenity, peace and tranquility, imperative for high-profile acting talent or for confidentiality.

● PROXIMITY

Proximity means production cost is significantly less for team and equipment transportation.

● HOSPITALITY

Maldivian communities welcome international parties working in the atolls and are eager to extend their support. A local partner offers greater convenience and knowledge especially for logistics, and may well be vital for making the project a success.
